

Strengthening the Capacity of the Armenian General Department of Civil Aviation (GDCA) in the Integration and Enforcement of Joint Aviation Requirements (JARs) and EU Aviation Safety Regulations

General Information

Sector: Transport
Duration: 24 months
Implementation period: February 2011 - January 2013
Budget: EUR 1.1mln

Beneficiary Administration: [General Department of the Civil Aviation of the Republic of Armenia](#) 

EU MS Partners: Lead partner - [Spanish Aviation Safety Agency \(AESA\)](#) 

Project Description

Objective: To strengthen the capacity of the General Department of Civil Aviation of the Government of the Republic of Armenia in the application and implementation of Joint Aviation Regulations (JARs), or replacing European Aviation Safety Agency rules.

Components: **Component I:** Assessment and analysis of current situation
Component II: Implementation of EU aviation safety regulations and on the job training
Component III: Research on economic regulations affecting air transport and strategic issues
Component IV: Development of Information systems

Achieved results: The main results achieved during the implementation of the project were as follows:

- a) Over 30 European standards, Joint Aviation Regulations and European Aviation Safety Agency rules were adopted, understood and correctly applied by the staff of the General Department of Civil Aviation;
- b) Authorisations and responsibilities for the implementation of Joint Aviation Regulations or European Aviation Safety Agency replacing rules were internally distributed;
- c) Internal information management and maintenance systems of the documentary database were developed;
- d) An overview of the economic regulation of the aviation in Armenia and its comparative analysis with the EU were conducted.
