Project Description

Objective: To support the State Revenue Committee in strengthening control procedures and enforcement in Armenia according to the best practice in the EU Member States.

Components:

- Component I:** Improvement of legal framework related activities
- Component II:** Strengthening of Customs control procedures prior to release of goods
- Component III:** Improvement in relations with traders and simplification of customs control procedures
- Component IV:** Strengthening of risk management
- Component V:** Improvement of post clearance control and audit

Achieved results: The main results achieved during the implementation of the project were as follows:

- a) Around 20 amendments to the Customs legislation (relating to customs control, risk management, post-clearance audit) to harmonize with revised Kyoto Convention and EU Acquis were developed and adopted;
- b) Number of internal legal acts directed to improvement of works of Customs services were adopted;
- c) Over 200 officials were trained in the priority subjects of current reforms (components of the Twinning project) with a good level of assurance of the obtained knowledge and skills.
