

Black Sea Buildings Energy Efficiency Plan

General Information

<u>Sector:</u>	Energy Security
<u>Duration:</u>	24 months
<u>Implementation period:</u>	June 2013 – May 2015
<u>Total Project Budget:</u>	794,720 Euro

<u>Beneficiary institution of Armenia:</u>	Armenia Renewable Resources and Energy Efficiency Fund, Armenia
<u>Participating countries:</u>	Greece, Armenia, Romania, Moldova, Ukraine, Turkey

Project description

<u>Overall Objective:</u>	The project is aiming to contribute to stronger regional partnerships and cooperation schemes in the Black Sea area through the reinforcement of administrative capacities of local authorities and bodies.
---------------------------	---

Achieved results:

- Regional cooperation was established.
- Experience in dealing with the benefits and challenges of regional cooperation has been succeeded.
- Results of Energy Efficiency Study in Armenia have been collected, which will serve as a basis for further implementation of programs.
- Study tours to Armenia have been organized, energy efficiency and other eco apartments have been constructed (Yerevan, Dilijan, Gyumri, Goris), as well as seminars were conducted for construction workers.
- Audit (in the sense of Energy efficiently) has been conducted from 12 community buildings in Vayk.
- International Energy Efficiency Conference has been held.
