

# Sharing Collectively the Competences of the Researchers to the Farmers for a Sustainable and Ecological Exploitation of the Agricultural and Environment Protection

## General Information

<i>Sector:</i>	Agriculture
<i>Duration:</i>	24 months
<i>Implementation period:</i>	December 2012 – November 2014
<i>Overall budget:</i>	EUR 607,111

<b>RA beneficiary organisation:</b>	Yerevan State University
<b>Participating countries:</b>	Romania, Moldova, Armenia, Turkey

## Description of the projects

**Overall Objective:** To bring a contribution for a sustainable development in the project areas, through the common effort of the partners – specific actions for improving the agricultural practices and awareness on reducing chemical fertilizers uses.

### **Achieved results:**

- Awareness on environment and pollution of the Black Sea among farmers and related organizations to agriculture and environment was increased;
- Usage of chemical fertilizers was decreased to help environmental protection and conservation, compensated by increased usage of environment friendly composts;
- The academic research results in the field and exploitation of good practices were utilised from one region to another;
- Future cooperation among the actors was increased.
